Thank You!

Thank you for your purchase of The Polar Express™ Conductor Announcement Car. This car plays actual dialog clips from The Polar Express™ movie in concert with the locomotive in your The Polar Express™ train set.

Note! This car is designed to work with most LionChief THE POLAR EXPRESS™ sets. This includes Lionel 6-30218 The Polar Express™ LionChief set, 6-81101 10th Anniversary Limited Edition The Polar Express™ set and 6-84328 The Polar Express™ set with Bluetooth®. For those running any Lionel conventional The Polar Express™ (using a transformer and not a remote control), please use 6-36875 Conductor Announcement Car. This coach does not work with any freight sets or any sets produced in a special limited run.

Your remote will automatically acquire the signal from the announcement coach in addition to your locomotive. The conductor's lantern will flash if it has not locked into the remote. Once the signal is acquired, the lantern will be on constantly.

To activate the coach announcements, press the announcement button on the remote included in your set (see illustration).

Note! You can also use the Lionel Universal Remote 6-83071 with the 6-30218 Bluetooth® set. Operation will be the same as with your Bluetooth® set remote.
